February 24, 1997.

Take notice that on February 18, 1997, Tennessee Gas Pipeline Company, P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP97–251–000, a request pursuant to Section 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 18 CFR 157.212) for authorization to modify an existing receipt point to include delivery capabilities for Bridgeline Gas Distribution L.L.C. (Bridgeline), an interstate pipeline company, under Tennessee's blanket certificate issued in Docket No. CP82–413–000, pursuant to 18 CFR Part 157, Subpart F of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Tennessee proposes to modify an existing point located on its system at approximately Mile Post 526A–2701–0.01 in Plaquemines Parish, Louisiana, to include delivery capabilities in order to effectuate the delivery of up to 5,000 dekatherms of natural gas per day for Bridgeline. It is further stated that Bridgeline will reimburse Tennessee for the cost of this project which is approximately \$18,600.

Tennessee states that the service at the bi-directional point would be provided on an interruptible basis and that: (i) volumes delivered to Bridgeline after the modification of this receipt point would not exceed the total volumes authorized prior to this request to modify the receipt point; (ii) that establishing the proposed bi-directional point is not prohibited by Tennessee's existing tariff; and, (iii) that Tennessee has sufficient capacity to accomplish receipt and deliveries at the proposed point without detriment or disadvantage to its other customers.

If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
